 Block 1
 Block 2
 Block 3
 Block 4
 Shared math and English block

- Your schedule will show two halves for each block. For example, 1.1 and 1.2 are both considered block 1.
- Every class meets for one full block, so the SAME class will show in both halves of the block on your schedule. There is not a break between the two halves of each block.
- The only exception is ONE shared block, which will be half English and half math. You will change rooms and classes halfway through the block. This is in addition to your one full block of English and math.
